

LSR

Duepi Srl is specialised in the design and construction of moulds and moulding of liquid silicone articles (LSR).

TECHNICAL FEATURES:

Extreme temperature resistance

UV resistance

Ozone resistance

Harmful radiation resistance

Bacterial resistance

Tensile and tear resistance

Hypoallergenic material

Highly biocompatible

Food compliance

High transparency

Light transmission

Anti-microbial material

MAIN MARKET SECTORS SERVED

Medical

Biocompatible and hypoallergenic components for nursery and medical devices

Food Industry

Certified as safe products for food contact, resistant to high temperatures

Energy

Solutions resistant to extreme environmental conditions with excellent insulating properties

Sports Equipment

Flexible and impact-resistant solutions adaptable to various shapes and uses.

Lighting

High-performance optical components with outstanding transparency and heat resistance.
